

Birds & Bees

Providing Sexuality Education and Resources to Youth and Adults

October 25, 2006

Mrs. Sara Khalfa
Southside Community Health Services
Outreach Administrator
310 east 38th street
Minneapolis, MN 55409

Dear Mrs. Khalfa:

On behalf of the staff of The Birds and Bees Project, we are writing this letter to extend our support as a collaborative partner to Southside Community Health Services Plain Talk program.

We support the mission of Plain Talk and look forward to providing Southside Community Health Services resources such as staff time and materials to help implement this program in the neighborhoods of Bryant and Central neighborhoods.

Programs such as Plain Talk help women and youth in our community receive the information and education they need to empower themselves to make positive reproductive health care choices as well as reduce the barriers to accessing healthcare services. We are very happy to be a collaborating partner.

Sincerely,

Nikki Madsen
Associate Director
